## Museum Heads Hold Meeting Here on Friday

Board of Directors of the Museum will hold their annual meeting here Friday afternoon, May 14, at 2 o'clock, Dr. L. F. Sheffy, curator and general manager of the museum, announced last week.

The annual meeting of the Panhandle-Plains Historical Society will be held the same afternoon at 4 o'clock. The annual banquet will begin in the evening at 7 o'clock. Dr. W. C. Holden, faculty member of Texas Tech, will be the principal speaker at the banquet.

A meeting will be held in the museum building Saturday morning, May 15, at 10 o'clock for students and others who are interested in West Texas historical research. Dr. Holden and J. E. Hales, noted Texas historical researcher, will speak at the meeting.

The museum here is the largest state museum south of the Mason-Dixon Line, according to Garland Adair of the Texas Memorial Museum in Austin.

Boone McClure, assistant curator reported that 15,380 persons from every state in the Union and from six foreign countries have signed the registry during the first quarter of this year. McClure says this indicates last year's record attendance of 44,507 will be broken by several thousands.

Represented on the register during the first four months of this year are 262 Texas towns and cities. Nearly every county in the state is represented, the bulk coming from the Panhandle area in particular and the West Texas area in general.

Citizens from China, Siam, Canada, Belgian Congo and Hawaii have signed the book since the first of the year.

McClure predicts at least a dozen other countries would be represented before 1948 runs out. He said last month's attendance of 5,517 persons broke all records for April by "almost 2,000." This, he said, indicates the normally heavy months of July and August which last year drew 5,113 and 6,336, respectively, will be record-breakers this summer.

Visitors to the museum range from scientists of paleontology and anthropology to grammar school pupils. Sir Hubert Watkins, noted explorer, made a special trip to Amarillo and Canyon just to visit the museum. He described it as "amazing."

The museum's popularity among tourists and others who have heard of its fame is indicated in the fact that 91 persons from California have already visited it this year. Outstanding out-of-state registrants include Michigan, 24; Illinois, 42; New Jersey, 13; Colorado, 55; Washington, 11; Iowa, 36; Kansas, 64; Nebraska, 42; Arkansas, 20; Louisiana, 9; and Maine, 4.

## Study of Bible Is Needed Among All of Nations

John R. Sharp made a classification talk Tuesday at the Rotary Club, discussing the wide spread study of the Bible, and what it meant to the world.

The speaker stated that "Men are religious by nature." Therefore all should be concerned with the study of the Bible.

Many attempts have been made to discredit and distort the Bible. Attention was called to motion pictures which are not historically true.

There is a bright side of the influence of religion in the world. The old adage that "The good die young" is not true. The life of the transgressor is short, according to statistics.

The Bible has been called the "roving book." It is all over the world. It is the best seller in most nations. It is printed in 1,068 languages. It has been the greatest influence on the English literature.

"The Bible was not written at one time, but extends from 1200 B. C. to 150 A. D. It contains 66 books, a library within itself.

When the dime was coined, the words inscribed "In God We Trust," indicates that we recognize a power greater than our government.

Since we are basically a religious nation, "We should be ashamed of our lack of knowledge of the Bible," concluded the speaker.

Visitors were: A. M. Cunningham of Canyon; Albert Smith, Irving Tolzien, Dr. A. M. Meyer, Chas. H. Young, J. J. Sanders, all of Amarillo.

Local citizens are urged to assist in using their cars in bringing the visitors to the cafeteria.

## Large Acreage Of Row Crop Is Likely in 1948

From all indications Randall county will have a very large acreage of row crop this year.

Wheat fields in all sections of the county are being plowed up this week as the drouth continued. Only a small part of the volunteer wheat acreage would have a chance to produce, even with the most favorable weather, seems to be the general opinion of farmers.

A large acreage will be summer fallowed, hoping for fall moisture for the 1949 wheat crop.

Cattle were turned on many large wheat fields during the past week, but due to the drouth, little pasture is expected from this land.

While wheat farmers deplore the lack of moisture for a 1948 wheat crop, they are not dismayed since the Panhandle has produced seven good crops in a row. Last year was the banner wheat crop of this area, but 1948 will likely be chalked up as one of the poorest that the Panhandle has ever had.

## District Christian Churches to Meet Ceta Glen Sunday

Men of the churches who can give work toward the renovation of the camp are asked to bring bedding, saws, hammers, and plumbing tools so they can assist in this work which will begin Monday and last through Wednesday.

The members of the local Christian Church are urged to bring their families and a picnic lunch for the meeting on Sunday. There will not be an evening service at the church due to this meeting at Ceta Glen.

## School To Talk Over Tuition For Next Year

In a meeting of the Board of Trustees of the Canyon Independent School District Tuesday night it was agreed that on Monday night, May 24, board members of the sending districts would be invited to a meeting with the Canyon board to try to work out a plan for the education of our children for the coming year, and to determine the tuition charge to the sending districts to be made for the year 1948-1949.

It was learned this week that the educational costs for the present school year were found to average \$165.00 for elementary pupils and \$210.00 for high school pupils. It was estimated that the average costs for next year would approximate \$205.00 for elementary pupils and \$255.00 for high school pupils.

The reason for these increases in costs for next year are as follows:

Raising teachers salaries to meet the minimum salary schedule as required by law, an increased cost of interest and retirement of bonds recently voted for expansion program, and increased maintenance and upkeep of added buildings.

Formal invitations to this important meeting will be sent to the trustees of the sending districts. All interested citizens of Canyon and the common school districts will be welcome.

## Candidates Looked Over by Voters of South Amarillo

Several district and county candidates were guests of the North Randall County Civic Club in South Amarillo Monday night at the regular monthly meeting of the club.

The candidates were given a place in the pulpit of the church, seated facing the audience with a portable mike. The loudspeaker was used in order that all members of the audience might hear.

Questions were asked the candidates both by the president of the club and by members of the audience.

During the two hour session the following were questioned: Clyde W. Warwick, Lloyd King, M. E. Cantrell, L. S. Johnston, W. L. Avent, Mrs. Elzie Price, Mrs. Irene Sloan and Mrs. Ruth Hill. T. H. Lair was scheduled to appear, but was detained by illness.

Another group of candidates will be questioned at the June meeting of the club. This is the first time that such a discussion has ever been held in Randall county.

The candidates were at Umbarger on Tuesday night of last week; at Jowell on Thursday night and at the Canyon high school on Friday night. They will be at the Park school on Friday night of this week, for an ice cream supper.

The gun this 12-year-old Jewish boy of Neveh Yaakov, Palestine, is holding is no plaything. It's a real Sten gun and he's teaching the young girl how to operate it. ## R. E. Foster, Pioneer, Died Here Thursday

R. E. FOSTER

R. E. Foster, a pioneer of Randall county, died Thursday afternoon at 3:15 o'clock at the family home following a lingering illness. He was born on April 5 1876, having reached the age of 72 years, 1 month and 1 day at the time of his death.

Mr. Foster had been a resident of Randall county for 58 years. He came to the Plains in 1890 for his health. He came from Greenville to Amarillo by train, and rode on an ox-drawn wagon to Canyon. For four years he was employed on the old T-Anchor Ranch.

From 1900 to 1908 Mr. Foster served as Hide and Animal Inspector for Randall county. In later years he served on the city council and was fire marshall of Canyon for several years. He was an active member of the Methodist church and served on the Board of Stewards for many years.

After engaging in farming and stock raising for several years, Mr. Foster was engaged in the service station business at the site of the old lively stable, now occupied by the Bellah Market. He later moved to a location east of the square.

Mr. Foster and Miss Lillie Allison were married in 1912. He is survived by the widow and three children, Mrs. J. T. Hill of Wichita Falls, Mrs. Jimmie Holston of Borger and Donald Foster of Houston, together with five grand children.

Funeral services were held Friday afternoon at 4 o'clock at the Methodist Church, conducted by the pastor, Rev. Hubert Thomson.

Interment was in Dreamland Cemetery, in charge of the Griggs-Warren Funeral Home. Pall bearers were relatives of the deceased, Hosea Foster, Robert W. Foster, Lee Foster, Dewey Foster, Mark Foster, and Van Foster of Borger.

# Editorials

We have read of the disastrous results in other towns when boys and girls started the wild game of "ditch-em," with cars. We have been dreading such a thing in Canyon, and have often wondered when the mangled body of some boy or girl would be found, cruelly crushed in an overturned car, or mangled between two cars which were recklessly driven by thoughtless youth. The first accident caused by youths using powerful cars for a silly and senseless purpose has caused one girl to have a mangled foot, which will be mute evidence for months, and perhaps years, for the prevailing insanity of drivers who are not using common sense. The automobile is a wonderful invention when properly used. In the hands of careless drivers, the car is equal to a machine gun or tank in the hands of a crazy operator. We hear that the streets of Canyon are being turned into race tracks by a certain element of youth, whose parents are not aware of the abuse to which the boys and girls are turning their cars. The city could not stop this practice unless it hired motor cops to patrol every street, every hour of the day and night. Common sense must prevail among drivers, young and old, before this abuse of traffic regulations is settled. It is fortunate that some girl or elderly person has not been killed by such drivers. The only thing that we know to do is for every parent in Canyon to put his children on their honor to use sense in driving, and to take the car away from them once sane traffic violations are violated. We hope that the lesson of the recent accident may be thoughtfully considered by those who have been carelessly neglecting to observe the golden rule in driving.

Henry Wallace's running mate, Senator Taylor, drew a fine for refusing to observe color regulations in Birmingham. That is exactly what Wallace and Taylor wanted. It is unfortunate that such men run for important public offices, but in this Democracy we have no choice of our candidates. The people are usually pretty fair judges of such candidates, and know how to handle them. The hell raisers are found in the Wallace-Taylor camp—if such a conglomerate bunch of misfits may be given the honor of a camp.

Lee Satterwhite, former speaker of the House of Representatives in the Texas Legislature, and a man who has served from three districts of the state, comes fourth with a good suggestion. He proposes that the legislature be reformed by making the House composed of 120 members and the Senate composed of 60 members. Committees would be reduced to 10, and the members would be paid \$20 for the time in session. This looks like a good suggestion. We hear a lot about the Nebraska plan, one house legislature. But Nebraska is only about one-fifth the size of Texas, and the state's interests are pretty much the same. Texas is an empire, with all kinds of problems, which members of the legislature cannot adequately solve in a short session. Increasing the size of the Senate would deprive a majority of only 16 members from absolutely controlling legislative matters at all times. It looks as if Lee was making a good suggestion.

We give up. For weeks The News and other newspapers of Texas told the voters that they had more say in the political conventions than they would in the general election in November. Yet we find that in a majority of the precinct conventions of Texas there were more delegates to be elected than voters present. This fall the entire Democratic party will flock to the polls—we hope. Yet few citizens took the time to help select delegates who will in turn sit in on the National Convention and name the Democratic standard bearer. People who have Democracy do not appreciate it—we fear.

Only a small part of the voters of the Canyon Independent School District took the time to go to the polls and express their opinion on the \$75,000 bond issue. Perhaps those

who did not vote were in favor of the bond issue and took it for granted that the people would pass the measure without their support. At least it was very evident that the school needed the money to do improvements which must be done. We are sure that all voters feel that the bond issue is just the beginning of needed school improvements in Randall county. We have felt for many years that two very, very essential steps must be taken before Canyon would have an adequate school system. First, we should have consolidation of all districts; second, we should have one central high school in Canyon. We believe that these steps must be taken in the immediate future. The present Board of Trustees are fully aware of the seriousness of the present school situation and are embarking on a program which will eventually lead to these school reforms.

We read a political sheet from Austin, the Texas Observer. When you read one issue you are convinced that the so-called Texas Regulars in 1944 are running away with the affairs of state, and Texas is headed for eternal damnation. It appears that Governor Jester is charged with being the big chief of the Regulars, and all that is wrong with Texas may be laid at his door. After reading the so-called Observer, we wonder how in the world one man's mind becomes so warped that he can continue week after week printing the same line of chatter without running dry of words.

The Texas prison system is up for another airing. The prison board will seek four million dollars from the next session of the legislature to remodel the system. There is no question about deplorable conditions which exist in the system. But frankly what is a model prison system, and what does it accomplish? We have seen the Texas system, and it is no picnic ground. But when we read that a majority of the inmates of every prison are repeaters, we wonder if prisons in other states are any better than those in Texas, and whether we could build one that would reform those of criminal intent. We wonder.

Both Taft and Stassen proclaim their satisfaction with their Ohio victory (?). Taft got most of the votes, but Stassen revealed that Taft was not altogether tops in his home state. As a matter of fact, while the people of Ohio have always revered the Taft name, the people have never been crazy about any of the Taft clan.

the iron curtain we can get a little information about Russia, member of UN, while we could probably learn nothing should Russia be kicked out of the organization. Probably good reasoning.

In spite of the fact that Russia has continued to abuse the veto power, Secretary of State Marshall is opposed to abolishing the power, which we insisted in writing into the organization. He argues that we might have to use the veto, and then it would be a handy thing to have around.

It is evident that Mother Nature is on a vacation, so far as this section of the Panhandle is concerned. Throughout the war, nature was good to the nation. Farmers raised abundant crops, which were so badly needed. It is likely that this splendid crop period is over, for 1948 at least, and that the wheat yield will be low in Randall county in 1948. This is unfortunate, since the world still needs a big wheat crop to carry it through the trying post-war period.

We note that the Democratic County Convention down at Austin was in session nine long, long hours. A vast amount of hot political breezes blew from the gathering. Truman was cursed; and praised. Jester was booed; but elected a delegate to the State convention. The convention finally selected Eisenhower as its choice for the Democratic nomination. They take their politics seriously under the shadow of the Big Dome.

Southern Senators who were threatening not long ago to oppose Mr. Truman for renomination are beginning to edge back toward the White House.

Herbert Hoover and Alfred Landon are busy spreading the idea that Joseph Martin, House Speaker,

would be the man for the Republicans, to turn to in event of a stalemate in their June Convention. Clarence Brown, Representative from Ohio and campaign manager for Senator Robert Taft, is reputed to be friendly to Speaker Martin in event that Mr. Taft does not make the grade.

The Taft leaders are conceding privately that Harold Stassen will get at least six delegates out of the 23 contests for delegates that he has entered in the Ohio presidential primary. If Mr. Stassen picks up nine or more Ohio delegates, it will be considered a favorable contest for him.

Speaker Joe Martin is not so sure now that he made political hay by playing closely with John L. Lewis in a coal-strike settlement that turned out not to be a real settlement. Mr. Lewis in the past has sought favors from those for whom he has performed political favors. The Lewis political line at this time is to play closely with the republicans.

Earl Warren, Governor of California, is entering more seriously into the calculations of Republican leaders who are trying to figure out who might be the party nominee in event of a stalemate. Senator Arthur Vandenberg and Speaker Martin will get a run before Warren is given his chance to show what he can do.

Word direct from Moscow to Russian representatives around the world is to keep things in a state of flux, with nothing settled, at least until it is clear who is to be the next President of the United States. Joseph Stalin is keeping a close tab on the drift of sentiment in the Republican Party.

U. S. Oil companies with interests in the Middle East are trying to combat charges that they are engaged in "oil imperialism." They are telling stockholders that they seek no more protection from the U. S. Government than any other investor with foreign holdings, anywhere. ## "Blithe Spirit" To Be Given by Speech Group

Frances Lynn Townes, sophomore speech major from Amarillo, declares she has had little time to act herself the past three weeks.

Frances Lynn was chosen last month to play the leading role of Ruth in the speech department's production of Norman Krasna's comedy, "Blithe Spirit." Shortly afterward, Oma Link Rowley, director of Amarillo Little Theatre, asked her to play the part of Arabel Moulton-Barrett in that organization's production of "The Barretts of Wimpole Street." Mrs. Rowley stated that she was impressed with Frances Lynn's performance in the leading role of "Joan of Lorraine." Maxwell Anderson drama presented by the speech department last fall. Frances Lynn accepted both parts and said last week she finds herself busy learning lines for both parts.

First performance of "Blithe Spirit," commencement play, will be presented Tuesday night, May 18, in the Education Building Auditorium with Frances Lynn portraying the leading role.

Beth Kimbrough, sophomore from Canyon, will represent the top role in the second run Wednesday night, May 19, in the same auditorium. Beth will be remembered by her recent appearance as Martha Vincent in "Dear Ruth." She has been accepted as a student in the drama department of Baylor University this summer.

The leading male role will be played by Lin Welch, senior speech major from Twitty. He has been active in the speech department for the past four years.

Katherine Brooks, junior from McLean, will play the leading comedy role of Madam Arcati, the medium. She has previously played in "Little Women" and "Tenth Word," speech department productions of last year.

Other members of the cast will be

Jody Marsh, junior from Crosbyton; Marvin Bowman, senior from Lefors; Mary Frances Colwell, junior from Canyon; and Frances Alice Harp, junior from Canyon.

George Turner, junior from Amarillo and Priscilla Rogers, freshman from Tulla, will furnish background music for the play.

"Blithe Spirit" has been lauded throughout the United States for its vivacious laughter appeal. New York Times describes it as a "completely insane farce that is also uproarious," while Wolcott Gibbs of New Yorker Magazine calls it "as deft, malicious and fascinating comedy as you would hope to see." Louis Kronenberger of PM says "... 'Blithe Spirit' has, fortunately, what it takes to make a good farce come alive on the stage." norwood, directs the speech department's production of "Blithe Spirit" as a project for his masters degree.

## Success of Rec Hall Is Mrs. Reeves Job

Mrs. Reeves and a Customer

By Bascom Nelson

"I like the work because of the association with the students," was the statement made last Friday to this Prairie representative, by Mrs. Ada Reeves, whose picture you see above. Mrs. Reeves is the waiter, manager, cook and cashier of the WT famous "Terrill Rec Hall."

Mrs. Reeves started this work in 1942 as a dietician for the Terrill Dining Hall and has been doing basically the same work off and on ever since. The recreation hall was open only a small portion of the time until January 5 when Mrs. Reeves began work there. She has decided to make this her future life work. She put a brother and sister through WT with this line of work, and is soon to have the daughter of her sister, Miss Ronnie Pair, come to live with her as she goes to this college.

This news of her continuation of her work comes as a happy surprise to most of the men of Conner, Tierra Blanca and Terrill Halls. The snack bar with its hamburgers, pie, soda pop, and other eats make college life much easier on the men. It is also convenient for breakfasts, too. The Hall is opened each morning except Sunday to the men who want to eat breakfast, either bacon and eggs, pancakes or just for a cup of

coffee.

"I've seen Terrill Hall grow from a Buffalo pen," came as a surprising statement. We learned upon drawing her out on the subject that the present site of Terrill Hall and the recreation hall was once the location of a Buffalo stable. The National Youth Administration built the hall and the first students to stay there worked an hour each day and paid \$15 per month for room and board. During the war the recreation hall served as a barracks for soldiers stationed here, and later as a canning center. Mrs. Reeves stated she had seen the complete growth and activities since it was completed in 1934.

Last year the recreation hall was used as living quarters for about 50 men who were waiting for the completion of Conner and Tierra Blanca Halls.

She came to Canyon in 1922 from Floydada and has lived here ever since. She is well liked by the men of these halls who find her an ever ready conversationalist and good cook. She is always working at something and during the interview she wasted no time, but rolled up hamburger meat for the rush to come. Mrs. Reeves has a hard job and is doing a wonderful service for those who patronize the Rec Hall.

## A. L. Tarlton Will Represent County in Republican Meet

A. L. Tarlton was elected delegate to the Republican State Convention which will be held at Corpus Christi on May 25.

When the county convention was held last week, Mr. Tarlton was elected and will go unopposed to the state meeting.

As a surprise visit to their son, Bobbie, Mr. and Mrs. J. C. Dowd attended Open House Day at Texas A. & M. Saturday, May 8. They were accompanied by Miss Evelyn Frazier of Waco. The Dowds visited in Waco and Corsicana and spent Sunday with their daughter, Martha Jean, in Kaufman.

According to a report from Shattuck, Okla., Henry Bradford is greatly improved from his recent operation and hopes to return home this week. His three daughters returned home last week, Mrs. W. C. Black of Canyon; Mrs. Lon Davis of Floydada and Mrs. Irby Carruth of Waco.

Mrs. G. S. Ballard of Amarillo and Mrs. J. C. Dowd visited Wednesday with their sister, Mrs. Annie Evans of Tulla.

## Announcement Luncheon Given Miss Wofford

Announcement was made Saturday of the approaching marriage of Miss Amelia Anne Wofford to Mr. Herman Keith Bogan of Greenville. Wedding plans were revealed at a luncheon given by the bride-elect's mother, Mrs. C. D. Wofford and the bride-elect's aunt, Mrs. A. W. Sternberg in the Sternberg home in Canyon.

The serving table was covered with a lace cloth and centered with a low bowl of spring flowers on a mirror reflector. Places were marked with dainty pink hearts topped by wedding rings containing tiny corsages of sweet peas. Inside the hearts was the announcement "Anne - Keith, May 29th," written in mauve ink.

The ceremony will take place in the First Methodist Church in Plainview.

The guest list included: Mesdames C. D. Wofford, Jr., Burt Jones, J. M. Holloway and Miss Jo Hal Wofford of Plainview; Mesdames Douglas Groom and Darrill Blanton of Hereford; Tommy Lair, Murphy White, Dawson Little, Bill Sternberg, Leonard Britt, Ray Moore, C. D. ## William A. Moore Starred In Little Theatre Production

The Little Theatre of Amarillo produced "The Barretts of Wimpole Street" Wednesday night in the municipal auditorium at Amarillo. The leading role of Robert Browning was played by William Angus Moore, director of dramatics of West Texas State.

Mrs. Oma Link Rowley, director of the play, selected Mr. Moore as the best qualified man in this section for the role, and her selection was heartily approved by the large audience.

The average Supreme Court decision is written in the worst possible English. The judicial products of Chief Justice Vinson, however, are an exception, as were those of the late Justice Holmes. Holmes drove the rest of the justices nuts trying to imitate him.—H. L. Mencken, author, "The American Language."

Griff of the Washington Senators wants a center fielder. How will I do? I'm down to 192, my weight when I played my last major league game in 1923.—Ty Cobb, onetime American League batting champion.

The domestic price structure in the U. S. will not be measurably affected by the European Recovery Program.—Willard L. Thorp, Assistant Secretary of State.

Paul Hoffman, with billions to distribute to Europe as Administrator for Economic Co-operation, already is concerned by the prospect that he cannot give every Marshall Plan country in Europe all of the dollars that it wants. Mr. Hoffman is discovering, at the same time, that there is a strong disposition in Congress to tie the strings on the way he will divide up and distribute the dollars that the Plan provides.

Averell Harriman gave up his cabinet job and accepted the task of supervising the use of Marshall Plan billions in Europe under Mr. Hoffman because nations abroad were pressing for someone to get busy on this job and no other experienced official could be found in a hurry to meet the requirements set up. As United States Special Representative, Mr. Harriman, more than anyone else, will determine how the U. S. billions are to be spent.

Robert Lovett, Under Secretary of State, now is feeding out the story that the January proposal of the Russians that a Truman-Stalin meeting really be made to U. S. Ambassador Robert Murphy in an informal way over a couple of highballs and should not be considered as a serious proposal. Until now, the State Department has denied categorically that there even was such a proposal by Russia.

In spite of the State Department efforts to kiss off the Russian advances in January as informal and unimportant, the advances were made by a Russian of full rank as a marshal who holds, in addition, the same full rank as Ambassador in Germany that Robert Murphy holds for U. S. It was a regular approach of equals of ambassadorial rank.

Russian officials recently approached two prominent U. S. business men with "feelers" as to the possibility of settling understanding issues between this country and Russia. These moves followed the rejection by President Truman of the earlier proposal for a Truman-Stalin meeting.

This is the year in which the minority may again prove to be a majority by turning out and voting.

Louis XIV was king of France at the outbreak of the French Revolution.

#### BOTH BORROWERS AND LENDERS

AS THE NATION HAS MOVED FORWARD FROM RELATIVELY SIMPLE TO MORE COMPLEX WAYS OF LIVING, MOST OF US HAVE BECOME BOTH BORROWERS AND LENDERS—DIRECTLY OR INDIRECTLY.

-BORROWERS, FOR EXAMPLE, THROUGH THE MORTGAGE ON OUR HOME

-LENDERS, AS THE FUNDS OF OUR LIFE INSURANCE COMPANY ARE INVESTED IN HOME MORTGAGES.

AS BORROWERS WE ARE INTERESTED IN OBTAINING MONEY ON FAIR TERMS. AS LENDERS, WE ARE INTERESTED IN A RETURN THAT ADEQUATELY REWARDS AND ENCOURAGES THRIFT—AND THIS IS TRUE WHETHER OUR THRIFT BE THROUGH LIFE INSURANCE—SAVINGS ACCOUNTS—OR INVESTMENTS.

## Church Women Plan Help to Recreation

May Fellowship Day was observed by the Canyon Council of Church Women on Friday, May 7, with the women of the Presbyterian Church as hostesses. The morning session was opened with a devotional by Mrs. A. B. Haynes.

Mrs. Harvey Cash, as area chairman, brought an inspirational message on "The Church and Its Outreach" with an appeal for united effort and prayer for a Christian world.

Mrs. H. A. Brown, in her report, discussed the need for playgrounds, and the need for more adequate library facilities for small children in Canyon.

A piano solo by Mrs. R. D. Wheelock was followed by choral selections by the All-Church Choir, directed by Mrs. Bryan McDonald.

In Fellowship Hall, which was beautifully decorated with spring flowers, a covered dish luncheon was enjoyed by those present.

The afternoon program began with organ meditations by Mrs. Lee Foster.

During the business session, Mrs. Bryan McDonald presiding, the Council pledged support to the migrant workers in Texas and to the leper relief fund.

From a panel discussion, led by Mrs. T. H. Knighton, definite steps were taken to support local recreation activities for youth, and to

formulate a plan for welcoming new comers to our city.

The next meeting of the Council will be at the Baptist Church on June 29.

## Miners Strike Is Most Expensive With No Benefit

Just what did the coal strike cost this country, its people, and the world? Here is a partial answer.

Nearly 50,000,000 tons of badly needed coal were not mined. Exports needed to carry out our foreign policy had to be drastically curtailed. Thousands of automobiles were not built for lack of steel. And thousands of coal cars, needed for next winter's peak movement, could not be manufactured.

The miners lost more than \$100,000,000 in wages. Their welfare and pension fund lost about \$5,000,000. And there is no way to estimate the millions lost to workers in the industries which had to cut down operations because of lack of coal.

The country's stockpiles of coal are sadly inadequate. They cannot be rapidly replenished—supply and current demand are in close balance, and our exports must be resumed if the European Aid Program is to have a chance of success in the fight to keep Communism from dictating to the world.

All that happened because one man obviously considers his organization superior to the welfare of the United States and its domestic and international policies during a period of grave crisis. He has it in his power to bring to an almost immediate stop the basic industries of the country, and to throw armies of workers into unemployment. He can decide whether or not the American people shall or shall not have coal to heat their homes. Can any country long allow any man such great and menacing authority?

## War Scare Has Subsided With Defense Plan

At the time this is written, the war-is-imminent spirit doesn't seem so intense as it was a short time ago. It reached almost hysterical proportions in March, when some of the commentators talked blithely of rains of bombs on American key centers. A number of military leaders are still warning Congress and the country that the possibility of war this year or next cannot be precluded. However, such top officials as Defense Secretary Forrestal have expressed a much more moderate view, and the general feeling is that a war, if there is to be one, is at least five years off, probably ten, and maybe fifteen.

Back of that are several theories. One is a stiffening of anti-communist elements in Europe, as indicated by the Italian elections. The other is that nobody is ready for war or could win a war. A third is that, sooner or later, this country and Russia will get together and find some means whereby communism and capitalism can exist peacefully in the same world. In this connection, it is interesting that reports from Moscow say the government has soft-pedaled war talk in its controlled newspapers and radio. Stress is laid on current plans for expansion of the production of consumer goods, a projected higher standard of living for the Russian people, etc.

Every time the war scare dies down, the public eye naturally focuses once more on domestic matters. Congress has completed most of its big jobs—European aid and the tax reduction measure among them. Last major matter awaiting final action is preparedness and the pattern that will take is clear—a bigger air force, a limited draft, but no universal military training this year. No surprises are at all likely, unless the course of world affairs takes an unexpected turn. So the lawmakers, and the public can draw a deep breath and pin their attention on the political battles that are now moving toward the climax.

The stop-Truman movement within the Democratic party is a dead duck. The President will be nominated for re-election unless he amazes everyone and withdraws of his own volition. Only question is whom he will choose for his running mate. Party leaders would like Justice Douglas of the Supreme Court who, they think, might be able to bring back into the fold old Roosevelt followers whose enthusiasm for Truman is non-existent. But he hasn't shown any apparent interest thus far.

The Stassen drive has been in the bull-market phase. No other GOP aspirant has shown anywhere near his ability to attract the voters. He is tireless, has an excellent personality, and has been unusually forthright on all the issues. But, at the same time, the stop-Stassen element in the GOP is gathering its resources. Votes on primary ballots don't necessarily mean votes in the convention hall, and many top party leaders have no liking for the ex-governor of Minnesota. They think he isn't "regular" enough, wouldn't be a good party man, is too much like Willkie. However, as in the case of Willkie, they may have to take him whether they like it or not if public fever reaches a high enough temperature.

In all his talks, Mr. Stassen has spoken glowingly of Senator Vandenberg, a fact which has led to some interesting speculations. One of them is that if Mr. Stassen sees that he can't get the nomination he

will throw his strength to the Michigan senator, and perhaps accept the second spot on the ticket.

Governor Dewey's stock has definitely declined, though his backers still talk optimistically, and he will have great strength on the first few ballots at least. Two things, the political seers say, have cut the ground from under him with masses of voters. One is that he had his chance for the Presidency and missed. The other is that he always tests the winds of public opinion before offering his views on top issues, and for a long time he said almost nothing of a controversial nature.

The Taft candidacy still has its curious phase. Everyone admits that he lacks personal magnetism, and some are still pretty dubious of his views on international affairs. At the same time, men and women who disagree violently with his views say frankly that he has great courage and integrity. He isn't afraid of being unpopular—which, to most politicians, is the ultimate hell. He speaks his mind bluntly. He probably knows more about the actual business of governing than any man in public life today, and more than any President since Wilson. Despite his poor showing in the Wisconsin and other primaries, he is definitely in the running. He, like Dewey, will go to the convention with a massive block of votes. He has the Deep South Republican delegations completely sewed up.

The MacArthur candidacy died when he made so poor a showing in Wisconsin, and only a few last-ditchers still express hope for him. Most people are at last taking Eisenhower's statements that he isn't a candidate at face value.

Regardless of who is the candidate, the Republican talking points are easily forecast. They will call for more government economy, a reduction in the bureaucracy, more freedom for business in the interest of production. Mr. Truman will defend his budget, and undoubtedly ask for a restoration of price and other controls on some scale. Differences over foreign policy will deal with methods rather than broad principles.

General John J. Pershing is credited with having said, "Lafayette, we are here."

## Amateur Show Is Highlight of Night

Going, Going, Gone was the cry shouted by Mr. Bud Hickman at the senior box supper last Friday night. Surpassing any other money making project this year, the seniors took in approximately \$413.00.

An amateur show started the social off at 8:00 o'clock with Martha Jean Aven as master of ceremonies. The Moon Shine Boys, Jimmy Lindsey, Richard Walters, Billy Cleavinger, and Don Hickman began the entertainment by singing "Peeping Through the Key Hole," "Manana," and "Tear Drops in My Heart." The Slum Quartet, composed of Jeneva McDougal, Janey Forester, Bruce Winn, and Albert Craig, sang "Farther Along" and "Cotton Eyed Joe." Donna Erwin sang and played "Conversation While Dancing." The sextet, featuring Jo Ballard, Merle Bullard, Betty Thomson, Sarah Jane Martin, Donna Erwin, and Barbara McDougal sang "Blue Skies" accompanied by Max Bellah. Frankie Sneed sang the "Indian Love Call" and "Sentimental Journey," also accompanied at the piano by Max Bellah. Prizes were given to the best amateur on the show. The Slum's Quartet won the first prize of three dollars. Second prize of two dollars went to the Moon Shine Boys. The sextet won the third prize of one dollar.

### Candidates Speak

After the show each candidate for a public office gave a three minute talk.

Promptly after the speeches seventy decorated boxes were auctioned off. The prices ranged from \$4.50 to \$15.00.

Before the crowd ate, a five minute run off for the ugliest boy and prettiest girl was held. Both of these were very close with Dick Barrett, senior, winning for the boys and Jo Parker, sophomore, winning for the girls. Verna Davenport and Billy Cleavinger were the runners up.

"I thought the seniors box supper was unusually good, and the cooperation of the community in helping the seniors in this money raising project for their trip was excellent," stated Principal J. E. Miller.

### TO THE SENIORS:

About this time every year the seniors begin wondering and planning what they are going to do after graduation. Most of them have plans as to work, to go to college, or to do both. The majority always goes to college to continue further study in their chosen profession. However some merely go to college just for the social pleasure they may receive from it; they dream of being belles of balls, presidents of fraternities, guests at banquets, and never take into consideration the real objective of a college education. Others go simply for the reason that their friends are going, or because it is handy and in the same town. There are still others who go just to experience a new freedom, to try something new and adventurous. Our hope is that our seniors are not victims of these circumstances. Instead we think that they are going to really learn what is suited to them and what they want to do. We think also that our seniors will go to college with the determination of not being side-tracked by less worthy activities. They have chosen their colleges not because they sounded like fun and were handy, but because they have taken into

Howdy folks, here is your ole riding, roping, romping Cactus Cal, dragging in some more news for you boys and girls to feast your eyes on.

Well, well, Billy Cleavinger, how are things down your alley? Love lane, that is.

Betty Thomson seems to enjoy that handsome Berkely Sorelle's company. It looked that way Friday and Saturday nights.

It appears to Cal that Marvin Cornette has shifted from W. T. girls to Canyon High girls. Good deal, Marvin.

Billy Cunningham was having a gay time with Jerry Foster in geometry class, Monday. Hard problem wasn't it, kids?

Flash! Be on guard for that roving, water-squirting maniac, none other than Dick Barrett.

Could it be true? Jerre Inman says he likes to go with a certain W. T. girl.

Wayne Prichard, saddle your horse and ride after that girl of your dreams. Could it be Dana Rice?

Make up your mind, Mable Graham. Which will be the boy you admire in church, Donald Davis or Billy Cleavinger?

Tommy Hunter and Valeta Haiens are rumored to have a case of spring fever.

Two couples starting young in this romance business are John Miller and Doris Jennings and Ray Foster and Lucille Simon.

## Canyon High Seniors Portray First Graders on 'Kid Day'

"You were my bashful barefoot"

beau,  
I was your queen in calico.  
When we were a couple of kids."  
People have been prone to underestimate just what a kid will do when he has the chance, but take thirty-nine seniors dressed for "Kid Day" and anything is likely to happen.

Teachers and fellow classmates thoroughly enjoyed the woe-be-gone faces of many of the "children," as they manfully sang the awful happenings of "Mary Had a Little Lamb" and "The Farmer in the Dell." Quite a few of the kids enjoyed playing on the slide and the merry-go-round.

Such hair styles! Many grade school children would have been mortified if they could have seen braids, pompadours, dancing long curls and what have you perched on girls' heads in hopes of somehow resembling their tiny sisters.

Clothes—there is a fine dignified word with lots of character; but what those seniors did to it could never be told. Dress lengths somehow crawled from an inch above the knee to nearly seven!

Many conversations grew hot and fast and some even led to hair pulling and kicking. One could see "kids" shooting water guns and playing dolls.

All good things must come to an end, so with many tired but happy sighs, our "kids" lay down their dolls, dolls, and "pulleys" toys for a new diversion—the senior trip and final exams.

Such was this KID DAY!

### Classroom Teachers Conclude Year's Meeting with Dinner

In a last get-together for the year, Classroom teachers of Canyon High met in the home of Mrs. Cecil Simms, south of town, last Tuesday evening at 7:00 p. m.

After the dinner the group sang popular songs accompanied by Mrs. Irene Ball on the piano. Business was dispensed with until the fall meeting.

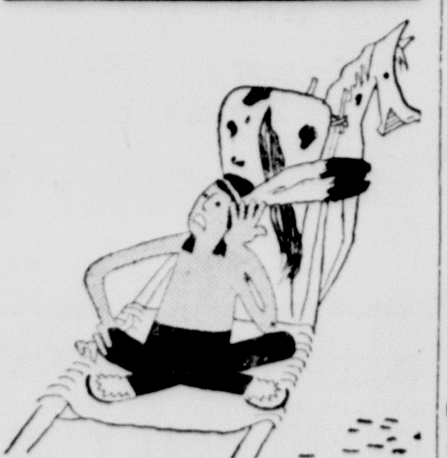

Teachers present were: Mr. and Mrs. J. E. Miller, Mr. and Mrs. Perry Bell, Messrs. M. K. Young, T. L. Devin, R. D. Wheelock, Mesdames John Davis, A. K. ## CHS Seniors Choose College and Careers

By Clifford Burtz

Our senior class must take advantage of the next few weeks to mix with each other because after graduation the members will be scattered to several occupations and schools of higher learning according to a recent survey.

A typical example of what students will be doing are Max Bellah's plans. Max says that he isn't going to do anything this summer, just work in Bellah's store. He will attend Texas University this fall.

Two students are leaving our Southwest and will attend Freed-Hardeman College in Henderson, Tennessee this fall. They are Jack Sparks and Lorella Devin. Jack will work at the Globe-News in Amarillo this summer. Lorella plans to be married in June.

Two other graduates will enroll in Nurses Training Schools after summer vacations. Ruth Lill plans to enroll at a school in Abilene after her trip to Ridgecrest, North Carolina this summer. Frankie Sneed plans to attend a nurses school in Amarillo after she graduates from summer school.

Five girls are planning to attend a business school this fall. Wanda Parker will enroll at Draughon's in Lubbock after working and vacationing the summer away. Jeneva McDougal will spend the summer days in Corpus Christi and will attend some business school this fall. Joyce Carter will attend one of Draughon's Colleges after working at home this summer. Joan Morton says that she wishes to secure an office job this summer and attend Draughon's in Amarillo this fall.

Gladys Lowe will attend summer school in Plainview to graduate and attend a business school later. Valeta Haiens is planning to attend S. M. U. after keeping books this summer.

Five graduates wish to attend Texas Tech in Lubbock. Martha Wilson is planning a trip to Old Mexico and will work at home until fall term begins. Betty Jane Hales plans to work and travel this summer and attend Tech this fall. Guy Brant will be employed in his new home town of Hobbs, New Mexico during the summer and attend Tech this fall. Clifford Burtz plans to work at home all summer and attend Tech in the fall when the fall term begins. Jean Hill has no definite plans for the summer except work at the Randall County Grain Company through harvest and will go to Tech this fall.

Freda Menke and Frances Standley will attend Baylor University. Freda will work at home through the vacation days while Frances plans a trip to California and to work.

Verna Davenport plans to attend a beauty operator's school in Amarillo after she graduates from summer school.

Fourteen graduates plan to stay in Canyon and attend West Texas State. Joan Bullard will work through the summer. Betty Thomson will finish school in the summer and vacation in California. Rita Gunter will take a trip to Houston and sleep the rest of the summer. James Bible will work at home all summer. Austell Burrus will work at home until he leaves for his fishing trip to Colorado. Meade Michael has the same plans. Marvin Fite will be employed at the Baptist Church as caretaker through the summer.

Elmer Mickey will work at Cooper's Market until the fall term begins at West Texas State.

Sue Ann Colwell will finish school at W. T. in the summer and is planning a trip to Dallas. Tommy Hunter will work on a construction job at Dumas during the summer. He plans to attend West Texas College. Eugene Morris will work in the harvest and attend West Texas. Letha Harwood will work and then vacation in California. She also wishes to attend West Texas. Billie Money will attend summer school to obtain her diploma and then attend West Texas. Colleen Prichard wants to travel and keep books and go to West Texas College. Dick Barrett and Lee Bailey wish to enroll at New Mexico University this fall. Lee may work in the Atomic Energy Commission at Los Alamos, New Mexico, while Dick works on his father's farm.

Eula Mae McCarter plans to be married after graduation and has no other plans.

Paige Carruth will work in the harvest and he also will probably be married before the summer is over. Wayne Davis will work in harvest and go to California. Sponsor T. L. Devin will organize a new agriculture department for Canyon High School.

So seniors, enjoy the next few days because you will probably never be together again. We wish you luck, all of you.

### Mrs. Mary Bryan Presents Tulla Choir in Assembly

The Tulla High School Choir, under the direction of Mrs. Mary Etta Bryan, were presented to the students of CHS in an assembly last Wednesday.

"The Golden Chariot" and "Smoke Gets in Your Eyes" are two of the outstanding numbers sung by the choir. An Irish ballad, "Danny Boy" was sung by the sextette.

Members of the choir had lunch in the cafeteria and then observed our school building.

We've been told that a fellow's temper is one thing that will improve the longer he keeps it.

## CHS Seniors Leave Wednesday on Trip

Canyon High School's seniors left on their trip to San Antonio, Corpus Christi, New Braunfels, and Austin last Wednesday on a chartered bus.

Wednesday night was spent in San Antonio and the following day in touring the Alamo, Breckenridge Park, Spanish Missions and the Buckhorn Saloon. The group will stay Thursday night at Corpus Christi and Friday morning, they will go on a fishing trip in the Gulf. Leaving Corpus Christi in the afternoon the class will spend the night in New Braunfels, where an amusement park is located, and the next morning they will continue their trip to Austin.

While in Austin the students will visit such places as O. Henry's home, the Capital, the University Museum, the University Campus, and the Statesmen's cemetery. Spending the night in Austin, the group will start home and will arrive in Canyon sometime Sunday night.

## SOCIETY SUE

Here's Society Sue to allow what the latest campus fashions are.

Billy Cleavinger caused a big glare on the baseball field when he wore a bright yellow T-shirt.

Speaking of loud glaring garments, notice all the loud plaid clothing. Mary Jennings sported a gathered green, yellow and black plaid skirt. Dorothy McReynolds' was in a pink and black plaid dress with a bustle effect in back while another green and black dress was featured by Lucille Simon.

"Cute" and unusual pixie shoes with criss-cross straps are being sported by Chloe Ann Black. Dorothy Butler has a new pair of white ballerina ankle strap shoes. Sparkling gold sandals belonging to Jeanline Scott are among the first to appear in CHS.

Don Hickman's calendar figured shirt caused a lot of confusion in civics class.

A very attractive pink chambray jumper and lace trimmed blouse is being worn by Betty Ruth Thomson.

Sue Ann Colwell's cool, blue chambray dress, featuring tiny pearl buttons looked very pretty.

A pair of pale yellow trousers were modeled by Harry Campfield.

Sarah Jane Martin's new feather bob, hair style is quite attractive. Wanda Edwards looked very charming with her hair French-braided and her bangs in bounce down curls.

Bruce Winn's new loafers with argum soles are another new addition to clever costumes.

Checks seem to be in demand. Mary Sue Foster looked very stunning in a black and white checked cotton with vari-colored stripes at the waist and neck line. Another gray and white checked dress, full skirt with a large bow in the back was worn by Mary Ann Sloan.

Seniors sported a kindergarten style Monday. Nothing permanent, just traditional "Kid's Day."

Mrs. A. K. Knott, math and Spanish teacher, left suddenly Sunday morning with her husband, to be with her son, Jimmy, who is seriously ill in a Los Angeles hospital.

### Frances Standley Is Queen

Frances, besides serving as an officer in the various class organizations, has assisted in the Principal's office for the past four years. She has served as a member of the Student Faculty Congress, and is a reporter this year on the Eagle's Tale.

Jimmy Lindsey has, also, held positions as class officer, has served on the Student Faculty Congress, and has lettered in football for the past two years, filling the guard position last year, and tackle the past season.

## Grade School Enacts Operetta Recently

In a colorful Spanish setting, students of the fourth, the fifth, and the sixth grades of Canyon Public school presented the operetta "Fiesta Time" last Friday in the grade school gym.

Approximately one hundred and ninety students participated in the program. The first scene portrayed the Spanish Market Place. Hawkers, dressed in Spanish costumes, greeted each other and cried their wares in their native tongue. This part of the program was concluded with the gala custom of breaking confetti-filled eggs on each other's heads.

The decorations were one of the most striking features of the affair. Gayest of colors adorned the side walls. The north wall was entirely covered with a Spanish landscape. Vivid colors were in evidence, also, in the costumes of the girls. Full skirts, brightly colored blouses, and shoulder wraps of serapes and scarfs added the necessary atmosphere.

The bull dance, "Torito de petate" preceded others; as, "The Hat Dance," "Pala-Pala," of Argentine origin. "San Sanerito" and "La Bala de la Escoba."

Two Spanish students, Naolo Luna and Eddie Baca, sang "Cito Lito Lito."

Joan Mickey was the announcer of the numbers on the program.

## Spring Is Here!

Everything was glittering (Janey Forester) with the dew of the fresh and lovely (Verna Davenport) spring morning. The rays of the brilliant (Don Hickman) sun were seen on the red-topped (Rusty Davis) clouds. Every where the creatures of the venerable (all seniors) forest awoke to the noisy (Harry Campfield) break of day.

Far in the dark (Joan Martin) forest a brook glided down the mountain side to meet his brother, the river, at the bottom. Tiny (Betty Ross Craig) flowers peeped from beneath rocks and trees, quietly singing (Frankie Sneed) their happy (Frances Standley and Marvin Fite) song of spring.

The day grew warm (Mable Graham) and pleasant (Jimmy Lindsey) while the tall (Austell Burrus) trees swayed in the lively (Weedon Young) breeze. At last the day came to an end. The silent (Horace Carter) moon shone down upon its charges for the night and wished them all a sweet (June Jennings) (good (Bryce Slack) night).

James L. Hill of Wichita, Kansas visited Mr. Miller and the halls of Canyon High, Monday. He is a graduate for the class of thirty-five.

## Nichols Explains Public Service

H. L. Nichols, Chairman of the Board of Directors of Southwestern Public Service Company of Dallas, in his address at assembly Thursday, described the Panhandle and Southern Plains areas of Texas and the Pecos Valley of New Mexico as "God's own garden spot of the country."

With "The Electric Industry—Its Problems as a Public Servant" as a topic of discussion, Nichols explained he was merely going to think out loud, "hoping to give the students a brief story of the complicated type of problems inherent with a unit of industry always prepared to furnish numerous and adequate electric service whenever a customer throws a switch or pushes a button."

Electricity, he said, is difficult to define. It can range, he explained, with a touch of humor, from the simplest form to the more complicated, such as the electric chair.

He said a woman once asked him why an electric company could charge 10 cents per kilowatt for electricity that was found everywhere in the air.

In explanation, he listed the reasons for service charges as follows:

1. An electric company must employ to buy and install the necessary equipment.
2. It takes fundamental backing to buy and install the necessary equipment.
3. Experienced employees are needed for expert operation and service.

He explained that since the employees of the company are almost entirely skilled laborers, the company invests \$50,000 in each one. He further explained that the com-

pany was owned by a large number of people of different types, stocks being held by individuals, institutions and other groups.

Nichols stated he was born and brought up on a farm until he was 15. He worked his way through college, and has much confidence in anyone who did the same.

A member of the audience asked Nichols why the utility companies were opposed to the St. Lawrence Project.

In response, Nichols said a definite answer could not be given. He said the utility companies realized the St. Lawrence Waterway would be similar to the Tennessee Valley project, and that they realized the greatness of the TVA. However, he said the utilities believe such a project could be carried too far. On the other hand, he said the public service companies were as a whole in favor of the large hydro-electrical plants.

Nichols received a degree of Ph.B from Yale University in 1907. He was president of Southern Minnesota Gas and Electric Company from 1917 until he entered the investment banking business in 1920. He again returned to public service in 1937 as vice-president and director of American Gas and Power Company in New York City. He became president and director of Community Power and Light Company of Newark, New Jersey, in 1941 and retained that position until 1942 when he began his present position. In addition to being Chairman of the Board of Directors of Southwestern Public Service Company, Nichols is director of United Public Utilities Corporation, General Telephone Corporation and General Telephone Service Corporation.

Nichols was brought to the college under the sponsorship of the Mary E. Hudspeth Honor Society. Curtis Babcock, sophomore from Dumas and President of Mary E. Hudspeth, introduced the speaker.

Bones is the best known Negro in Amarillo and has devoted his life to improving conditions among the Negroes of this section. Miss Moss Richardson also attended the dinner. Funds were being raised for a Negro community center in Amarillo.

Mexico's dollar shortage, like that of any other Latin-American country, is growing acute. Part of that shortage grows from the fact that "contraband," in the form of automobiles, refrigerators, radios, perfumes and other things is being smuggled into Mexico in quite large volume in spite of the Government's ban on these "nonessentials" for

The first time I was ever paged was in the lobby of the Jefferson Hotel in Dallas in the spring of 1928. I was sitting there reading a paper when a bellboy sauntered by, chanting "Paging Mr. House; Mr. Boyce House." I was so astonished that he had nearly gotten out of earshot before I hailed him.

There are some questions that are better left unanswered—as for example if your wife asks, "If I were to die, would you marry again?" If you answer, "Yes," she may think you've already got a successor in mind; if you say "No," she may think that you consider marriage such a state as once out of, you'd never return thereunto.

So, brother, sidestep that question. Someone said, a good many years ago, "The history of Europe can be summed up in one sentence, 'England is an island.'"

The fact that England was not joined to the continent balked Napoleon's dream of conquest and,

before that, the attempt of Spain, whose Armada was shattered.

All callings have their pride of craftsmanship. Two street sweepers were talking about a comrade who had just passed away. One praised him highly; the other reflected and then said, "But don't you think Bill was a little weak when it came to sweeping around the lamp-posts."

Schopenhauer was known as the philosopher of gloom. He maintained that life was not worth living and that the most fortunate day of a man's life was the day he died. An army advanced against Schopenhauer's city and thousands of inhabitants fled. In the front rank of the refugees was the philosopher of gloom who had claimed that life wasn't worth living.

### Warning Is Given Not To Swim In Unknown Waters

Seasonal advice to vacationists concerning the proper precautions to be used in water sports was released from the State Health Department today by Dr. Geo. W. Cox, State Health Officer.

Lakes and ponds of unknown depth, and streams of unfamiliar currents are often the site of picnics and excursions, and the usual lifeguard supervision associated with bathing beaches and commercial swimming pools is, of course, not available in such places.

"Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted. "Nevertheless, they possess dangerous possibilities if the rules of safety are disregarded through carelessness or thoughtlessness."

The State Health Officer outlined the following simple rules for bathing and swimming safety: at least one hour should elapse after a meal before entering the water; upon the first indication of fatigue, come ashore, and don't re-enter the water; if chilled, leave the water immediately; do not enter the water when overheated; learn to float—this is important; never attempt to rock a boat in a spirit of fun; and never swim in water that may be polluted.

"Outdoor excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life," Dr. Cox said. "It is by no means advisable to eliminate these pleasures from our summer program, but

it is important that they prove beneficial and not disastrous."

## Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employees reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15½ cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Railway Car and Engine Men, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employees have accepted. They have called a strike to get more!

Unions refuse rules discussion Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.

Greater wage increase not justified

Engineers and firemen are among the highest paid of all employees in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board,

after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these recommendations.

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

### Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15½ cents per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.
